A Associação Brasileira de Avaliação de Impacto realizou o 4º Congresso Brasileiro de Avaliação de Impacto (4º CBAI) no período de 22 a 26 de Outubro de 2018, na cidade de Fortaleza (CE).

(http://avaliacaodeimpacto.org.br/wp-content/uploads/2017/12/Fortaleza_Brazil_6.jpg) A situação vivenciada no Brasil nos últimos anos vem acompanhada de intensa pressão para modificação do quadro regulatório e procedimental que disciplina a aplicação de instrumentos de política ambiental, com ameaças concretas de fragilização do sistema de avaliação de impacto e licenciamento ambiental no país. Nesse sentido, a Associação Brasileira de Avaliação de Impacto entende ser de extrema importância a afirmação de valores éticos na atuação profissional em Avaliação de Impacto Ambiental orientados para a promoção de processos de tomada de decisão efetivamente transparentes e inclusivos às comunidades afetadas.

Ao escolher o tema Ética na Avaliação de Impacto Ambiental, o 4º Congresso da ABAI congregou profissionais de meio ambiente, consultores, representantes de órgãos ambientais, acadêmicos e sociedade civil na promoção do debate e da reflexão acerca dos desafios éticos na prática da Avaliação de Impacto no Brasil, com vistas à promoção de valores ambientais e sociais na formulação de planos e projetos de desenvolvimento."

Durante o evento foi publicada a Carta de Fortaleza (<http://avaliacaodeimpacto.org.br/1854-2/>), que chama a atenção para a ética e a democracia na AIA.

Veja abaixo um registro fotográfico do evento.
